Profile

I am an aspiring full-stack web developer with an academic and professional background in business development. My internationally oriented higher education and work experiences broadened my horizons and strengthened my people skills. I am open to acquiring new skills and continuously developing myself in the face of new challenges. I aspire to produce value through digital products and services.

Education

2022 - 2023

Full-Stack Web Development

Workintech

2017 - 2018
